

A diagram of a rectangular structure, possibly a chimney or tower, with a height labeled $H > 8m$. The structure is divided into three horizontal sections. The top section shows a cross-section with internal reinforcement, including a vertical bar and a horizontal bar, and a diagonal line indicating a structural feature.

Силиконовый герметик
для стеклопакетов
(первичный герметик)

При изготовлении стеклопакетов необходимо использовать герметик, устойчивый к ультрафиолету
